

Yard Waste and Brush Rules

(subject to change without advance notice)

Toters are designated for household trash only

Do not put the following material into Toters:

- **Grass clippings**—must be bagged in compostable **paper** bags (avail.at most local retailers) - no loose grass will be picked up.
- **Leaves**—must be bagged in compostable **paper** bags (avail.at most local retailers) - no loose leaves will be picked up.
- **Branches and limbs**— may be left loose.
- **Weeds, garden debris**—must be bagged in compostable **paper** bags—no loose garden material will be picked up.
- **Dirt/ Sod**—may be left loose.

Brush piles must be kept separate from the following:

- Leaves
- Cardboard
- Trash

Beginning April 26th, if these rules are not followed, we will not pick up items that do not adhere to these rules.

Why the changes?

We pay tipping fees for all trash (out of the toters) taken to the transfer station. All organic material is taken to our brush dump for free. This allows us to continue to offer low cost trash and yard waste/brush removal, as opposed to charging a monthly fee for waste removal. Thank you for your help!
